Sir:

Applicant appreciates the courtesies shown to Applicant's representative by Examiners Morrison and Bollinger in the September 8 personal interview. Applicant's separate record of the substance of the interview is incorporated into the following remarks.

During the interview, Applicant's representative asserted that neither Oleska, Morikawa, Hiroyuki and Chang do not, alone or in permissible combination, teach or suggest a paper feed apparatus and a paper separation mechanism including a plurality of resilient arm portions that hold the respective projections at respective positions, the arm portions being aligned in at least one row along a conveying direction of the paper, as set forth in the independent claims 1 and 13.
